

Premium Foliage

We are offering an assortment of foliage to create your perfect indoor fairy garden or terrarium. Bring home a #plantbaby today.

Asst foliage

- **Use:** These little beauties are perfect for making your own terrarium, indoor fairy garden, or windowsill garden.
- **Exposure/Soil:** High indirect light is best. Keep soil lightly moist at all times but never waterlogged. Reduce watering in winter. Use purified, tepid water is best with houseplants. Never let plants stand in water for more than 30 minutes, we like to use a wick system (with cotton twine) or fill a saucer with rocks and then fill water to the top of the rocks to create a humid environment for the plants
- **Growth:** Height depends on cultivar.
- **Hardiness:** Zone 10 Houseplant, Annual
- **Foliage:** Various foliage colors in this assortment.
- **Flower:** Most of these foliage plants are not known for flowers.
