

# Silver Ribbon Fern

**An elegant house-plant for your home!**

## *Pteris cretica 'Albo-lineata'*

- **Use:** The 'Albolineata' variety is the most common variety, otherwise known as the "Silver Ribbon Fern" for its characteristic creamy white colouring. Native to several continents, the Cretan Brake Fern is a strong species, and makes an easy addition to any terrarium environment.
- **Exposure/Soil:** Needs a bright (but not full sun & no hot sun afternoon through a window) warm, moist, humid condition with a well-drained soil mix. They will begin to suffer below about 55°F for prolonged periods. Best kept between 70°F and 80°F, with high humidity.
- **Growth:** Moderate growing. 1' tall and wide.
- **Hardiness:** **Zone** 9-11, Annual, Houseplant;
- **Foliage:** Displays colorful grey-green fronds with bold white center stripes.
- **Flower:** No flowers, but spores.
