

Coral Snake Plant/ Mother In Law Tongue

This plant filters pollutants from the air while releasing oxygen. With this plant in your home, you breathe cleaner air.

Sansevieria (Dracaena) trifasciata 'Coral'

- **Use:** Snake plants have gained a lot of popularity as a houseplant due to its low-maintenance care requirements. It is low-light tolerant and requires infrequent watering, making it an excellent houseplant for the constant traveler or city-dwellers with low-light conditions. The NASA Clean Air Study found that this plant is effective in removing environmental toxins such as benzene, formaldehyde, and xylene. Keep away from children and pets.
- **Exposure/Soil:** Low maintenance and can tolerate various lighting conditions, from low to bright indirect light. It prefers well-draining soil and infrequent watering, making it an excellent choice for those who want a low-maintenance houseplant. Drought tolerant; allow soil to dry completely between waterings
- **Growth:** Slow grower to 3' tall and wide and slowly spreading in a rosette pattern.
- **Hardiness:** Zone 10-12 Houseplant, Annual
- **Foliage:** Upright, sword-like leaves featuring dark green, almost black, horizontal bands over a lighter green background.
- **Flower:** Not known for flowers. They rarely bloom when they are grown indoors. The inflorescence is a long stalk that bears several small, greenish-white, sweet-smelling flowers.
