## *Tillandsia xerographica*

- Often referred to as the "Queen" of the air plants, this spectacular Tillandsia Xerographica plant is the one of the most stunning plants we have.
- Perfect for bouquets, vertical gardens, and medium to large sized containers.
- Silvery light green in color, Xerographica is one of the more rare varieties. Its thick, wide leaves form a tight rosette of curls with the thin, spiky new growth sprouting from the center adding a beautiful contrast in form.
- Hang them in glass orbs or from fishing line single or attach to driftwood or cork
- Anyway you hang them they are sure to be a conversation piece
