**Deer and rabbit resistant
but
hummingbirds
and butterflies LOVE it.**

Achillea 'Diamond Firefly'

- **Use:** Fireflies, or whatever you call the insects that light up the night-when you see them, they're a sure sign of warm summer weather. Similarly, this new Yarrow collection will light up your summer garden. These plants differ from other Yarrow due to their taller nature without compromising beautiful habits and sturdiness. Available in a wide selection of colors to fill the needs of your garden.
- **Exposure/Soil:** Full/part sun; Water occasionally, until established. Doesn't like much fertilizer.. Once established needs only occasional water.
- **Growth:** Full sun. Moderate to fast growth to about 24-28" tall and 32-40" wide.
- **Hardiness:** Zone 3-8; Perennial
- **Foliage:** Deciduous, Fragrant fern-like leaves
- **Flowers:** Ivory white flowers contrast beautifully with its dark green foliage. Upright, columnar habit. Flowers remain attractive as they age. We love them for cut flowers and produce for 5+ months.
