

# Firefly Red Pop Yarrow

## *Achillea 'Firefly Red Pop' PP36061*

- **Use:** Fireflies, or whatever you call the insects that light up the night-when you see them, they're a sure sign of warm summer weather. Similarly, this new Yarrow collection will light up your summer garden. These plants differ from other Yarrow due to their taller nature without compromising beautiful habits and sturdiness. Available in a wide selection of colors to fill the needs of your garden.
- **Exposure/Soil:** Full/part sun; Water occasionally, until established. Doesn't like much fertilizer.. Once established needs only occasional water.
- **Growth:** Full sun. Moderate to fast growth to about 24-28" tall and 24-28" wide.
- **Hardiness:** Zone 3-8; Perennial
- **Foliage:** Deciduous, Fragrant dark green fern-like leaves
- **Flowers:** Bright cherry red flowers have small yellow eyes. Upright, columnar habit. Flowers remain attractive as they age. We love them for cut flowers and produce for 5+ months.

**Yarrow is one of the easiest perennials to grow and is a good choice for beginners. All it needs is full sun and well-drained soil. These plants are an excellent balance of finely textured foliage and bright flower colors. The wide, flat flower clusters are popular landing pads with pollinators.**
