

Strawberry Seduction Yarrow

**Drought tolerant,
attracts
butterflies, deer
resistant, and very
easy to grow!**

Achillea millefolium 'Strawberry Seduction'

- **Use:** Fine textured, fern-like gray-green foliage makes an excellent contrast for the tall blossom heads. A vigorous Achillea with red flowers that keep coming in shades of ruby and salmon rose. The flat flower heads introduce a different shape into the perennial border. Road salt tolerant. Scored 4 out of 5 at UGA trials.
- **Exposure/Soil:** Full/part sun; Water occasionally, until established. Doesn't like much fertilizer.. Once established needs only occasional water.
- **Growth:** Grows to 2' tall and 2' +wide. It is a quick spreader and can form large masses if left unchecked.
- **Hardiness:** Zone 4-8; Perennial
- **Foliage:** Deciduous. This species has grey-green, ferny leaves that form a low, spreading clump.
- **Flowers:** Yellow-centered, sweet red flowers in dense clusters on upright stems over a long bloom period. Attractive in both fresh and dried flower arrangements.
