## *Agapanthus 'Ever Star' ('AMDB002') PP28767*

- **Use:** Compact agapanthus with bicolor blue and white flowers blooms early & repeats through summer; great for containers, borders & cut flowers. Deer and pest resistant; loves the heat and doesn't need much water!
- **Exposure/Soil:** Full to part sun. During the summer, be prepared to give them plenty of water. During the winter they prefer well-drained soils.
- **Growth:** Grows 16-18" high x 16-18" wide
- **Hardiness:** Zone 8a-11b Perennial; Mulch around plant in the winter.
- **Foliage:** Deciduous. The leaves are long and strap-shaped and look like large amaryllis leaves.
- **Flower:** Large, bicolor blue and white flowers blooms early & repeats through summer on 24"-30" stems spring to summer. Blooms early and reblooms atop sturdy foliage that serves as a lovely easy-care foundation plant when not in bloom.
