

Beelicious Purple Hyssop

Drought tolerant, deer resistant, and attracts butterflies! Looks great with yellow Tickseed and Coneflowers.

Agastache 'Agapd' PP30,614

- **Use:** The large, purple flowers are not only pleasing to the eye but also attract many butterflies and bees. A wonderful eye-catcher in the border, as a solitary and in mixed containers. A long flowering, heat and drought tolerant, as well as insect and disease resistant.
- **Exposure/Soil:** They should be grown in well-drained soil in full sun in a sand, clay or normal soil. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers.
- **Growth:** Compact growth habit of 12" wide and about 16" tall.
- **Hardiness:** Zone 6a-9
- **Foliage:** Deciduous. Bright green, mint-scented foliage
- **Flower:** Long-blooming deep-violet clusters on showy, luxurious 5" flower spikes from late spring until fall. Irresistible!
