

Thriller Lady's Mantle

Alchemilla mollis 'Thriller'

- **Use:** 'Thriller' is a more spreading and, believe it or not, even more prolific form of Lady's Mantle, the flower arrangers' favorite ground cover. Tough and adaptable, happy in sun or shade, the foliage captures individual water droplets after the lightest shower.
- **Exposure/Soil:** Tolerates sun or shade but best in half day sun. Prefers evenly moist soil. Please amend the red clay.
- **Growth:** Grows 18" tall and wide.
- **Hardiness:** 3-9 perennial.
- **Foliage:** Deciduous. Beloved for leaves that repel water droplets.
- **Flower:** Flowers are frothy clusters of greenish yellow that appear in early summer.

It also looks sensational massed on its own, creating an effect that can be sunny or demure depending on the light and surroundings.
