

Fantasy Jasmine Anemone

Anemone hupehensis 'Fantasy Jasmine'

- **Use:** A new addition to the Fantasy series, Jasmine has super tough, single pink flowers in a shade or two darker than Cinderella. If the other petite anemones on the market are just too small for your garden, try Jasmine and her sister Belle. They are about 6" taller than the first plants in this series and they make a much more impactful statement in the garden. With an improved, upright habit, increased vigor and flowers that blooms for a few months instead of all at once, this fall blooming anemone will brighten any garden border and will make a wonderful container plant for those who do not have room for a garden.
- **Exposure/Soil:** Prefers part shade, but will tolerate full sun with supplemental watering. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Moderate growing; reaches 15-18" tall by 10-15" wide
- **Hardiness:** Zone 6-9 perennial. Very easy to grow!
- **Foliage:** Deciduous; Green foliage is a great backdrop for the flowers.
- **Flower:** Displays an upright uniform habit with large, dark pink, single-type flowers on branching stems. Great for fresh bouquets.

Attractive in fall containers and as showy garden border plants for partially sunny locations.
