

Vintage™ Blush Begonia/ Pigsqueak

An excellent, deer resistant woodland plant for shaded areas. Kids love to rub the leaves together and make a squeaking sound like a pig.

Bergenia 'Vintage Blush'

- **Use:** Harkens back to older types of Bergenia that have survived in gardens for a century without care. Bergenia can be used in a variety of ways in the landscape. It is most impressive when used as a durable, evergreen groundcover, but it can also be used in containers and rock gardens. It is quite effective at softening the hard edges of pavement and also works well as an edging or filler plant in flower borders.
- **Exposure/Soil:** Plants are happy in any morning sun and afternoon-shady area that stays relatively moist, but well-drained. Use a slow release fertilizer in spring and fall.
- **Growth:** Grows 10-15" tall and 16" wide.
- **Hardiness:** Zone 4-9; Perennial;
- **Foliage:** Deciduous. Has medium sized, paddle shaped foliage in a rich pine-green color that deepens with cold weather.
- **Flower:** The spring bloom is amazing; great numbers of flowering stems that are branched with several layers of flowers that are long lasting. 'Blush' features a cascading style of flower truss; upright with flowers held like an orchid. Lovely blush pink flowers have a deep rose colored eye. An easy and sturdy landscape plant.
