

Frostbite Great Forget-Me Not

Brunnera macrophylla 'Frostbite'

- **Use:** Not all variegated plants can boast the sophisticated beauty displayed by this one's lovely foliage. Delicate sprays of starry blue flowers dance above on graceful stems in spring, offering a soothing yet vibrant presence in a shady spot. This low-maintenance option for the shade offers a superior balance of silver and green foliage and acts as a great foil for other plants.
- **Exposure/Soil:** Plants are happy in any shady area that stays relatively moist, but well-drained. Use a slow release fertilizer.
- **Growth:** Grows 6-9" tall and 13-16" wide.
- **Hardiness:** **Zone** 4a-9a; Perennial; Often will self-seed and appear around the garden in other places.
- **Foliage:** Deciduous; Heart-shaped leaves are slightly smaller allowing production in smaller containers as well as providing a nice texture in the landscape.
- **Flower:** Delicate flowers open blue and white, and mature to rosy lavender.

An excellent, deer resistant woodland plant for shaded areas.
