

# Cannova® Casa Bronze Peach Canna

## *Canna x generalis* 'Cannova F1 Bronze Peach'

- **Use:** Brings the allure of the Caribbean right to your garden with its majestic, banana-like leaves and vibrant, exotic flowers. Great for landscapes and container plantings in full sun! Striking foliage contrasts with the flowers, making them an eye-catching option for mixed combinations or in-ground plantings.
- **Exposure/Soil:** Full sun–light shade (not deep shade); Water regularly, when top 3” of soil is dry as they need a lot of water. Use slow release fertilizer in spring and summer. Once established needs only occasional water, but loves more for quick growth.
- **Growth:** Quickly reaches 30 to 48 in. tall, forming clumps 14 to 20 in. wide.
- **Hardiness:** Zone 7-11; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Large, bronze broad leaves. To prevent caterpillar damage cut and remove and do not compost winter foliage. Spinosad, Acephate, and Bacillus thuringiensis (Bt) can be used to control and insect issues.
- **Flowers:** A profusion of peach-colored blooms tops lush, green tropical foliage from late spring to fall frosts. Cut abck plant occasionally to maintain neat folaige.
