

Distant Memory Elephant Ears

Limited qty
available.

Colocasia esculenta 'Distant Memory'

- **Use:** This tropical plant forms huge, dark glossy mahogany leaves. While growing this plant, you'll appreciate its clumping nature, which translates to more vigorously filling out a pot and throwing up lots of new leaves.
- **Exposure/Soil:** Sun– part shade. Provide well-drained, moist soil, but not soggy. Use a slow release fertilizer. The more water and fertilizer they get the better. Could grow in a well aerated pond.
- **Growth:** It makes a giant clump to 4-5' tall and 5-5.5' wide.
- **Hardiness:** Zone 8-10, perennial, mulch 1' around plant in fall
- **Foliage:** Deciduous; Large, arrow-shaped leaves are lightly puckered and glossy-black in color when grown in the sun.
- **Flower:** Not known for flowers.
