

Charlie Boy Cordyline

Uses: Accent, Border, Coastal, Container, Edging, Groundcover, Mass Planting, Poolside, Rock Gardens, Slope, Tropical Garden, Water Garden

Cordyline australis 'Charlie Boy' PP20139

- **Exposure/Soil:** Full Sun to Part Sun. Needs good light to maintain its color and don't let it dry out between watering. Great for use in borders, beds, and containers. Allow soil to become slightly dry between waterings.
- **Growth:** Grows 2–3' high x 2–3' wide.
- **Hardiness:** Zone 8a-10b, Perennial, Houseplant. We still recommend planting them in SW exposure in sheltered areas so they remain evergreen.
- **Foliage:** Evergreen. Beautiful pink and burgundy variegated foliage
- **Flower:** Not known for flowers.
