Orange

## *Coreopsis grandiflora* 'Sunfire'

**Super tough and drought tolerant once established. The large, blooms smother the green, feathery, mildew resistant foliage of this easy-care, well-behaved plant, providing a long season of vibrant color.**

- **Use:** Use in mixed beds and borders, as a mass planting, an accent, or in a container. This is a hardy coreopsis, with a clean, manicured habit, an extremely long bloom time, and feathery, mildew resistant foliage. Attracts butterflies, hummingbirds and pollinator bees to the garden and blooms from summer into fall.
- **Exposure/Soil:** Prefers full-part sun It's fairly drought tolerant and needs little water. Looks lovely outside on the patio in planter.
- **Growth:** Grows has a plant height of 12-14" tall and a spread 18"
- **Hardiness:** Zone 6-10; Perennial. Very heat and drought tolerant!
- **Foliage:** Deciduous. The dark green thread leaf foliage makes a great contrast with the flower color.
- **Flower:** An impressive display of large flowers smother the foliage when in bloom. Nonstop blooms from June through October. It should be cut backing early and late summer to extend the bloom period.
