

Solana Glow Coreopsis/Tickseed

Coreopsis grandiflora 'Solana Glow'

- **Use:** With a lemon yellow flower color similar to 'Moonbeam' and the foliage habit of a compact 'Early Sunrise' this new Coreopsis will be right at home in the sunny border and will provide an extended season of blooms from early summer to fall. An occasional pinching is required to promote re-blooming.
- **Exposure/Soil:** Prefers full-part sun It's fairly drought tolerant and needs little water. Looks lovely outside on the patio in planter. Can divide easily in spring.
- **Growth:** Grows has a plant height of 10-12" and a spread of 10-12".
- **Hardiness:** Zone 5-9; Perennial. Very heat and drought tolerant!
- **Foliage:** Deciduous. The dark green foliage makes a great contrast with the flower color.
- **Flower:** Many upright stems of single, soft yellow blooms with rich, orange centers. Blooms continuously from early spring through late fall. Removing faded flowers regularly will extend the bloom season.

Super tough and drought tolerant once established.
