

Diablito Crocosmia

**Drought tolerant
and deer resistant!**

Crocosmia 'Diablito'

- **Use:** 'Diablito' (little devil) Crocosmia features dramatic crimson petals that will persuade pollinators to pay a visit, and hummingbirds favor the flamboyant flowers. 'Diablito' is a more compact cousin of the classic tall 'Lucifer' Crocosmia. Try it as cut flowers or as a border plant in your perennial garden and it is also a major attractor to butterflies. Deer resistant and drought tolerant!
- **Exposure/Soil:** Tolerates full sun to part sun. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established.
- **Growth:** 'Lucifer' has a plant height of 24-30" and a plant spread of 30-36".
- **Hardiness:** Zone 6-9, Perennial
- **Foliage:** Deciduous. Grass-like foliage is clean and beautiful even when plant is not in bloom.
- **Flower:** Its bright, orange-red flowers stand out from the rest. 'Lucifer' blooms in summer to early fall, June through August.
