(‘HDRF155’ PP23,300)

Scarlet (‘HDRY18’
PP26,962) (right)

Dahlias offer any garden that splash of hot, fresh color everyone enjoys. With nearly black foliage and large blooms that seemingly burst in rich vibrant displays of beautiful long-lasting color, dahlias always deliver a brilliant contrast to any surrounding plantings. Dahlias are always picture perfect whether in the garden or in pots.

Dahlinova ‘Dahlinova Series’

- **Use:** The Happy Days™ series of Dahlias from Verwer was developed in the Netherlands, and offers vibrant-colored flowers on well-branched plants with nearly black foliage. Excellent annual color for a container, or for accenting a bed or border. Plant en masse for a festive garden display.
- **Exposure/Soil:** Loves sun, but will take a little afternoon shade. Needs at least 5-6 hours of direct sunlight. Mulch well in the fall. Do not touch canes until following spring. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Grows 10-14” tall and 10-14” wide.
- **Hardiness:** Zone 8-11; Tender Perennial, needs protected location.
- **Foliage:** Deciduous; Nearly black, dissected foliage makes the bright flowers really pop!
- **Flower:** An array of 3” wide radiant blooms will capture eyes in any garden month after month, despite the weather. Elegant flowers attract butterflies and are great for cutting. It is good to remove the buds with spent flowers to encourage continued flowering.
