

Dancing Embers Ice Plant

Delosperma 'Dancing Embers' PPAF

- **Use:** A brilliantly colored series of succulent *Delosperma* from Proven Winners® Perennials. KALEIDOSCOPE™ *Delosperma* stand out on the market with large flower sizes and improved cold hardiness. Members of this series have reliably overwintered in Zone 6, West Michigan climates for multiple years prior to selection. These plants are notable for heat and drought tolerance, as well as requiring little to no maintenance. The ever-green foliage creates year-round interest and is useful as a groundcover. Plant widths are measured after two years and they are likely to continue spreading after that. Attracts butterflies.
- **Exposure/Soil:** Plant in full sun to partial sun(5 or more hours). Use slow release or water soluble fertilizer. Allow soil to be slightly dry between waterings. Must have well-drained soil. Drought tolerant once established.
- **Growth:** Low growing plants grow 2-4" tall and to 2' wide or more.
- **Hardiness:** **Zone** 5b-10 Perennial. Very heat tolerant! Mulch around plant in the winter.
- **Foliage:** Deciduous. Dense mat of succulent foliage
- **Flower:** Reddish orange flowers are almost completely solid in color, radiating around cream centers.

PW
PROVEN
WINNERS®
The #1 Plant Brand®

Deer resistant, perennial, heat tolerant, and drought tolerant. Ideal for large plantings, accents, and containers, they are long-lasting and neon-bright in the sun-soaked garden.
