

Grenade Jewel of Desert Ice Plant

Deer resistant, perennial, heat tolerant, and drought tolerant. Ideal for large plantings, accents, and containers, they are long-lasting and neon-bright in the sun-soaked garden.

Delosperam cooperi 'Jewel of the Desert Grenade'

- **Use:** There has never been a hardy iceplant like the Jewel of Desert series, and Grenade is among its most beautiful members! This breeding breakthrough delivers bright blooms on groundhugging plants continuously from spring until frost. Hardy, succulent gray-green foliage is ideal for borders, hillsides, rock gardens and other tough sites. Attracts butterflies.
- **Exposure/Soil:** Plant in full sun to partial sun(5 or more hours). Use slow release or water soluble fertilizer. Allow soil to be slightly dry between waterings. Must have well-drained soil. Drought tolerant once established.
- **Growth:** Low growing plants grow 2-4" tall and to 2-3' wide or more.
- **Hardiness:** Zone 5-9 perennial. Very heat tolerant! Mulch around plant in the winter.
- **Foliage:** Deciduous. Dense mat of succulent foliage
- **Flower:** Not a rebloomer -- an everbloomer, and it's so easy to grow! Hot orange-red blooms with lavender centers will provide an explosion of color until fall.
