

Delgenius Delphinium

Breezin'

Glitzy

Juliette

Delphinium 'Delgenius Series'

- **Use:** A cutting gardener's dream! Well-branched strong sturdy stems shoot up from a frilly mound of green foliage. Tall spires of double lavender flowers bloom in early summer and continue till fall. Large flowers attract butterflies and hummingbirds! Better genetics with excellent disease resistance, increased hardiness, and multiple branching stems - which means it is great for cutting gardens. Deer resistant!
- **Exposure/Soil:** Plant in part sun in our area, full sun up North. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers. If you are not good at watering we recommend using **Soil Moist**.
- **Growth:** Grows 18-24" tall and wide.
- **Hardiness:** Zone 3-8,
- **Foliage:** Deciduous. Finely cut leaves.
- **Flower:** Big double blooms (central cluster of petals). It blooms heavily in late spring and early summer, and then sometimes repeats when old flowers are cut back!
