

Summer Blues Larkspur

Delphinium grandiflorum 'Summer Blues'

- **Use:** Bright sky blue flowers arranged in dainty clusters rather than long, spiky stems of traditional larkspur. Thrives in heat and humidity. Upright, slightly rounded habit is perfect for mixed containers. Outstanding color for a perennial border!
- **Exposure/Soil:** Plant in part sun in our area, full sun up North. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers. If you are not good at watering we recommend using **Soil Moist**.
- **Growth:** Grows 10-12" tall and 1' wide. Shorter height means less likely to need staking
- **Hardiness:** Zone 3-7, Reseeding Annual Save seeds for following year to resow.
- **Foliage:** Deciduous. Finely cut leaves.
- **Flower:** Covered with sky blue flowers in spring.

Stately and breathtaking. Magnificent dense racemes make larkspur excellent in the border and as a cut flower.
