MIX IMP.

SCARLET IMP.

Dianthus 'Super Parfait Series'

- **Use:** Diamond offers superb garden performance in spring and autumn with its high uniformity in plant habit. Produces beautiful mix of reds, pinks, whites, purples and picotee blends. Compact plants without sacrificing their excellent garden performance. A good addition to the front border or used as an edging along a walk way. Will bloom for many years!
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Full sized plants grow to 6-8" tall and 6-8" wide.
- **Hardiness:** Zones 5-9; Perennial/ biennial
- **Foliage:** Evergreen. Small dark green narrow leaves.
- **Flower:** Showstopping blooms. 1.5" flowers bring a huge impact. Long bloom time in spring and fall.

**Perfect
for small
containers
and in
landscape
beds.**
