

Everlast Orchid Dianthus

Dianthus 'Everlast Orchid'

- **Use:** Everlast™ Orchid Dianthus is an herbaceous evergreen perennial with a mounded form. It brings an extremely fine and delicate texture to the garden composition and should be used to full effect. This super tough performer blooms in spring and summer, with an encore in autumn! Perfect for the cutting garden or as an accent in borders or containers.
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Compact, clump forming 8 to 12 in. tall, 10 to 14 in. wide.
- **Hardiness:** Zones 4-9; Perennial
- **Foliage:** Evergreen Glaucous foliage with unique dense mounding habit.
- **Flower:** Breathtaking frilly double flowers are a lovely rose-pink. Spring, repeating in summer and fall if spent blooms are sheared.

One in the Scent First Pot Series selected for compact form and great container performance.
