

Olivia Wild Dianthus

Dianthus 'Olivia Wild'

- **Use:** Great as edging or rock garden plants. Durable performance and dependable overwintering will keep your garden dancing with color year after year! Winter hardy, heat hardy, and tolerant of cold winters.
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Full sized plants grow to 6-9" inches tall and 8-12" wide.
- **Hardiness:** Zones 5-8; Perennial
- **Foliage:** Evergreen; Gray-green foliage
- **Flower:** Bright pink, elegant flowers are edged in white. Long bloom time. Trim faded flowers for faster flower repeating.

**Nonstop blaze
of showy,
fringy blooms
non-stop from
spring into fall.**
