from spring into fall.**

Dianthus 'Rockin' Rose'

- **Use:** *This dynamite series will keep perennial borders rocking for years to come, thanks to vivid colour, durable performance and count-on-it overwintering!* A party in the garden with 3" lively, hot pink, lacy flowers that bloom in clusters from early spring well into fall! Durable performance and dependable overwintering will keep your garden dancing with color year after year! Long bloom time and upright growth habit makes 'Rockin' Rose' a classy high performing border plant, and outstanding for beautiful bouquets.
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Full sized plants grow to 18-24" inches tall and 10-12" wide.
- **Hardiness:** Zones 5-8; Perennial
- **Foliage:** Evergreen; glossy dark green leaves
- **Flower:** Would you look at this big, tall, bushy Dianthus?! No shrinking violet, it's as vigorous and determined to bloom as its size would indicate. And the flowers are gorgeous -- neatly serrated and suffused with hot pink petals around a small rosy-pink eye. Trim back plants if flowers are faded and they will rebound with fresh flowers.
