

Bright Light Dianthus

Dianthus 'Vivid Bright Light'

- **Use:** Vivid and bright! An outstanding rebloomer, this small but mighty charmer delivers high-impact bright pink color late spring to fall. Fragrant flowers with deeply serrated petals shine against handsome bluish-gray foliage mounds. Dianthus, the ultimate cottage flower, is a versatile perennial at home in mixed borders, containers, butterfly, heirloom, and cutting gardens.
- **Exposure/Soil:** Needs a sunny site with well-drained soil, but will tolerate some shade in the afternoon along with humidity. Regular watering during prolonged dry spells will be necessary. However, they are tolerant of short periods of dryness. Little water needed once established.
- **Growth:** The habit is compact and mounding to a height of about 10" tall and 12" wide.
- **Hardiness:** Zone 5-9, Perennial
- **Foliage:** The evergreen, glaucous grey-green foliage provides a stark contrast for these shockingly showy flowers.
- **Flower:** Bearing hot-pink, fully double flowers on short stems. Flowers have a good fragrance, making them ideal for using in indoor flower arrangements. Prune off old flowers for longest bloom time.

Very easy
to grow
and low
maintenance!
