

# Double Scoop Lemon Cream Coneflower

## *Echinacea 'Double Scoop Lemon Cream'*

- **Use:** Giant creamy yellow double flowers on a compact, upright plant perfect for borders or mixed containers. Continues blooming for months, when faded flowers are promptly removed. At season's end, the dried flower heads add fall interest and forage for wintering song birds.
- **Exposure/Soil:** Full sun-part sun(6+hr).. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Moderate-growing to 24-26" tall and 16-22" wide.
- **Hardiness:** Zone 4-9; Perennial
- **Foliage:** Deciduous. Long oval leaves.
- **Flower:** Soft lemon-yellow, double pom-pom flowers that don't bleach out as they age, putting on a sizzling hot show of color in the landscape. Be sure to leave some spent blooms on the plants in the fall because their seeds provide winter food for finches and other birds. The dried seed heads also provide architectural interest in the winter.

**Easy to grow and unusual wildflower! Blooms spring to fall and loves the heat!**
