

White Swan Coneflower

Echinacea purpurea 'White Swan'

- **Use:** As a specimen, in borders, or massed. Good choice for meadow or prairie gardens. Deer resistant, drought tolerant. Attracts butterflies
- **Exposure/Soil:** Full– part sun. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Moderate-growing to 36-48” in. tall and wide.
- **Hardiness:** Zone 3-9; Perennial
- **Foliage:** Long oval leaves. Deciduous.
- **Flower:** Flower petals radiate downward from a pronounced central seed head, which will provide a food source for small birds as it matures. Long lasting as a cut flower, and attractive to butterflies. Flowers abound in early summer, then continue until frost.

Perennial Plant Association 1998 Plant of the Year
