

Fragrant Mango Glow Wallflower

Loves the
cool
weather
months
and
comes
back every
year!

Erysimum 'Glow Mango'

- **Use:** Easy-care, ground-hugging perennial welcomes spring with vibrant, citrus-orange colored, honey-scented flowers. Provides masses of reliable color above mounds of green foliage. This tough, drought resistant selection is an excellent choice for rock gardens or containers. Bred for low, ground-hugging habit and long bloom time. Loads of honey-scented blooms in a range of citrus-y hues.
- **Exposure/Soil:** Sun-part shade. Moist, well-drained soil, but not soggy.
- **Growth:** Grows 6-8" tall and wide
- **Hardiness:** Zone 5-11; Perennial
- **Foliage:** Small long green leaves. Evergreen
- **Flower:** Many small, honey-scented flowers in a range of citrus colors in early spring. This selection produces fragrant, bright mango flowers over bright green foliage.
