

Ascot Rainbow Spurge

Euphorbia x martini 'Ascot Rainbow'

- **Use:** Selected for its distinct and unique variegated flowers and foliage. The flower color consists of cream, lime, and green while the foliage displays tones of cream, green/blue with stunning red-pink coloring throughout cooler months. One of the major benefits of this selection is extreme tolerance to heat and dryness.
- **Exposure/Soil:** Plant in full sun, but will tolerate light shade. In our area they must have well-drained sandy soil to thrive in our wet winters. They are very drought tolerant.
- **Growth:** Grows 20" tall and 24" wide into a low mound.
- **Hardiness:** Zone 4-9; Perennial
- **Foliage:** Semi-evergreen stalks are adorned with narrow, glaucous leaves, each edged in an attractive yellow border. In cold weather, the upper leaves take on an attractive red overlay, Spring clean up preferred as plants can be semi-evergreen, especially in the south.
- **Flower:** In early spring the deer-resistant clumps are topped with bouffant-like flower clusters consisting of showy green- and yellow-striped bracts, housing the tiny red flowers...simply stunning!

Drought tolerant, deer resistant, and so easy to grow!
