

Feather Falls Variegated Japanese Sedge

Carex Hybrid 'ET CRX01' PP26199

- **Use:** Move over, Liriope! Feather Falls Sedge is in town. Bigger, tougher and faster growing than similar sedges. Feather Falls can take a bit more sun, making it a versatile addition to any container or landscape accent. Very striking as an accent plant or groundcover. Useful on the edge of the water garden but dislikes complete submersion.
- **Exposure/Soil:** Prefers moist, shady location. Needs ample water in hot dry locations.
- **Growth:** Grows to 12–18" high x 18–24" wide.
- **Hardiness:** Zone 5a-10b; Perennial.
- **Foliage:** Evergreen. gets rave reviews for bright foliage, strong growth, and heat and sun tolerance. Glossy, green leaves with vivid white margins arch outward from a dense, full crown.
- **Flower:** Not known for flowers.

Very easy to grow and great for shady, moist areas where other plants will not grow!
