

Variegated Japanese Sedge

**Very easy to grow
and great for
shady, moist areas
where other
plants will not
grow!**

Carex oshimensis EverColor® 'Everoro'

- **Use:** Superb ground cover and container plant with distinctive deep golden striped foliage; an improvement in depth of color over the popular Evergold. Forms a compact, easy-care, low mound that is perfect for massing. Hardy accent plant for year-round beauty.
- **Exposure/Soil:** A morning sun location helps hold the brightest color, which fades to chartreuse in more shade. Prefers moist, shady location. Needs ample water in hot dry locations.
- **Growth:** Grows to 12" tall and 18-24" wide.
- **Hardiness:** Zone 6-9; Perennial.
- **Foliage:** Evergreen. Green leaves with a large, gold, central band form a fountain of evergreen foliage.
- **Flower:** Not known for flowers.
