

Romantic Returns Daylily

Hemerocallis 'Romantic Returns' PP13481

- **Use:** A true showstopper, its deep pink blooms brighten any garden corner, from barren slopes to woodland edges. Each fragrant, 5" flower is exquisitely crafted with slightly ruffled edges and a lighter watermark that contrasts beautifully against the light green throat. This reliable rebloomer also features a high bud count of 25 across three branches. HAPPY EVER APPSTER™ Daylilies can survive many harsh conditions that other plants cannot including: polluted city environments, slopes, poor and dry soils, near pavement that is salted in winter, and under Black Walnut trees (not affected by juglone).
- **Exposure/Soil:** Full– part sun (but must be 5-6 hours of afternoon sun) . Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Once established needs only occasional water.
- **Growth:** Fast-growing to 25" high and 18-24" wide.
- **Hardiness:** Zone 3-9; Perennial
- **Foliage:** Semi-evergreen. Green foliage is thin and grass-like.
- **Flower:** Deep rose pink flowers have ruffled petals with notably large flowers for a continuous bloomer at 5" wide. Compared to 'Passionate Returns', this is a deeper pink with larger flowers. Rebloomer and flowers stay open at least 16 hours. Fragrant flowers are diploid with 22 chromosomes. Early-midseason bloomer.

Good for use as edging. Very heat tolerant and attracts hummingbirds to your garden!
