

# Daylily 'Rosy Returns'

**Good  
for use  
as edging.  
Very  
heat  
tolerant!**

## *Hemerocallis 'Rosy Returns'*

- **Use:** From Dr. Darrel Apps, the breeder of 'Happy Returns'. The fragrant, rose-pink flowers with a purple eye and a green throat just keep on coming. Plants grow to just 15" tall, so they're ideal placed along walkways or at the front of borders. Daylilies are some of the easiest perennials to grow and a good choice for any gardener. They are tough, adaptable plants that will grow in any soil, from normal to slightly wet to dry.
- **Exposure/Soil:** Full– part sun (but must be 5-6 hours of afternoon sun) . Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Once established needs only occasional water.
- **Growth:** Fast-growing to 15" high and 15-24" wide.
- **Hardiness:** Zone 3-9; Perennial
- **Foliage:** Deciduous. Long, thin foliage is a great compliment to large flowers.
- **Flower:** Large 4", fragrant, rose-pink blend with a deep rose eyezone and yellow throat. The first hardy rose pink everblooming daylily. Blooms consistently from June to frost; each stem bears 9-12 buds. Award winner
