

Heureka Amber Lady Coral Bells

Because of their low, mounding habit, they are often used as edging along paths or in containers. Try cutting a few of the tall flower scapes for fresh bouquets.

Heuchera 'Heureka Amber Lady'

- **Use:** Coral-bells will always be popular garden perennials, putting on an airy display of flowers above a low mound of rounded leaves. This is part of the HEUREKA™ series, which are new varieties, that exhibit exciting colours on dense, short plants. This selection features large, velvety, lobed amber leaves with a silver marbled overlay and rose-pink undersides. Flowers are insignificant.
- **Exposure/Soil:** Part sun (afternoon shade)-shade. Best when planted under other trees, but not too deep a shade or poor flowering and leaf color. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Fast growth to 6-8" tall, 12" in bloom overall, by 10-12" wide.
- **Hardiness:** Zone 5-10; Perennial
- **Foliage:** Semi-evergreen. Soft, velvety amber leaves, silver marbling overlay, and rose-pink undersides.
- **Flower:** Dark red stems produce lovely sprays of small white and pink bell-shaped flowers above neat mounds of foliage over a long season.
