

# Peach Tea Foamy Bells

Because of their low, mounding habit, they are often used as edging along paths or in containers. Try cutting a few of the tall flower scapes for fresh bouquets.

## *Heucherella villosa* 'Peach Tea'

- **Use:** Large, peachy-red leaves contrast beautifully with cream white flowers. This plant is vigorous and compact, but gives off a glow of daintiness in the landscape. Keep your borders clean with 'Peach Tea' or use in containers, summer borders, and mass planting.
- **Exposure/Soil:** Part sun-shade. Best when planted under other trees, but not too deep a shade or poor flowering and leaf color. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Fast growth to 20 "tall, 28" in bloom overall, by 24" wide. This plant is vigorous and compact while also offering a glow of daintiness to the landscape.
- **Hardiness:** Zone 4-9; Perennial
- **Foliage:** Semi-evergreen. Has large peachy-red leaves that contrast with its cream white flowers.
- **Flower:** Though small white flowers appear in late spring, this plant is really grown for its unique foliage color.
