

# Angel Falls Hosta

**Shade  
loving  
and  
very  
easy to  
grow!**

## *Hosta 'Angel Falls'*

- **Use:** A variegated sport of the multiple award winning solid green Hosta 'Niagara Falls'. If you like 'Bridal Falls', try this new large hosta for its reverse variegation. 'Angel Falls' forms an attractively rounded mound of cascading green leaves with beautiful white centers. The green margins measure up to 2" wide, with a lighter green area appearing where the margins and centers overlap. The mature leaves arch downward with a rippled margin.
- **Exposure/Soil:** Part sun (best)–shade. Acid, moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year.
- **Growth:** Grows to 38" wide and 16" tall.
- **Hardiness:** Zone 3-9; Perennial
- **Foliage:** Deciduous. Creamy-white leaves surrounded by a dark green rippled margin. The leaf center emerges more creamy yellow but will be creamy white in summer. This hosta does not fade to green in summer. There is a third lighter green color that appears between the margin and leaf center. The rippled margins are so perfect they look they were crimped by hand.
- **Flower:** Light lavender flowers appear in midsummer.
