

Hosta 'Atlantis'

A large type hosta for an instant shade garden.

Hosta 'Atlantis'

- **Use:** This is a superb tetraploid mutation of H. 'Abba Dabba Do' from T. Avent and H. Hansen. This hosta has a wider edge and is an improvement over the parent plant H. 'Abba Dabba Do'.
- **Exposure/Soil:** Part sun (best)–shade. Acid, moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year.
- **Growth:** Mature height of 5' wide and 30" tall.
- **Hardiness:** Zone 3-8; Perennial
- **Foliage:** Deciduous. Slightly wavy, pointed green leaves with a very light yellow margin. Leaf Size: 13" x 8" -- Vein Pairs: 16 - 18
- **Flower:** In early summer, the clumps are topped with spikes of lavender flowers.
