

Hosta Wide Brim

Shade loving and very easy to grow!

Hosta 'Wide Brim'

- **Use:** Hostas are exceedingly popular perennials in today's gardens due to their versatility in the landscape. Their subtle colors, tall flower scapes, and broad, coarse leaves fill a niche in garden designs that few other plants can achieve. Their large leaves provide excellent coverage for dying bulb foliage. Hostas also grow well in city environments where the air may be polluted by car exhaust, etc.
- **Exposure/Soil:** Part sun–shade. Acid, moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year.
- **Growth:** Will grow 16" to 24" (in flower) tall and spreads slowly up to 36" wide. Depends on variety.
- **Hardiness:** Zone 4-9; Perennial
- **Foliage:** Deciduous. Nicely mounded leaves are dark green with wide, irregular margins of buttery yellow
- **Flower:** Attractive buds open to pale lavender flowers on 24" scapes in mid to late summer.
