nance.**

## ***Lantana 'Lucious Royale Red Zone'***

- **Use:** This exciting series of colorful, compact varieties that bloom early and provide a summer-long show. Bred to breeze right through heat and humidity, and continue to bloom without dead-heading. A perfect, easy choice for smaller gardens and containers. Profuse color year-round from colorful flowers! Useful as substitute for annuals in flower beds or containers. Attracts butterflies. Tolerates heat.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established.
- **Growth:** Mounded form to 12-24" tall and wide.
- **Hardiness: Zone** 9-11b, Annual/Tender Perennial. Do not cut back stems until April after winter is passed.
- **Foliage:** Deciduous. Scented leaves. Cutting grown.
- **Flower:** Puffs of small red flowers packed into clusters adorn the dark foliage of this plant. The extreme heat tolerance makes it a winner in any warm summer climate. The plant is certified sterile by the University of Florida so it won't be invasive in warm winter climates.
