

Blue Star Creeper

This vigorous plant tolerates heat and humidity, flowering from spring till frost.

Laurentia fluviatilis (Isotoma fluviatilis)

- **Use:** Excellent as a lawn substitute, excellent between stepping stones, under roses, around ponds and decks. Super easy to grow, can bloom spring to frost and easy to maintain! Can survive up to -20 with snow cover.
- **Exposure/Soil:** The preference is full to partial shade and moist soil, but not soggy.
- **Growth:** Height of 2-4". And continues to trail along the ground.
- **Hardiness:** 8-9 Tender Perennial
- **Foliage:** Deciduous, Dainty leaves.
- **Flower:** Starry blue blossoms from late spring until fall.
