

Goldi Creeping Jenny

- A tried and true filler makes Goldii a favorite choice for mixed combos.
- Novel chartreuse foliage adds texture and bold color.

Lysimachia nummularia 'Goldii'

- **Use:** Goldii is a great plant to add to any floral environment. Its high versatility, vibrant color, and unique nature makes it a wise choice for many garden features. Plant along the edge of potted combos, hanging baskets, and window baskets for a beautiful spilling effect. Feature trailing over a rock wall, trellis, or raised garden. Simply use as vibrant ground coverage along a woodland edge, to complement other color tones in the natural landscape. Also works great cascading over walls and in hanging baskets. Tidy plants are valued for mass bedding effects or mixed perennial borders. Perfect for container gardens.
- **Exposure/Soil:** Full sun- filtered shade; Water regularly, when top 3 in. of soil is dry. Appreciates slow release fertilizer twice a year.
- **Growth:** This plant will get 4-6" tall and trail 10-16" making it a great groundcover as well.
- **Hardiness:** Zone 3-8; Perennial
- **Foliage:** Deciduous. Bright lime rounded foliage. The expression of leaf color is determined by sunlight exposure. Larger quantities of sunlight will result in rich lime leaves while smaller amounts of sunlight exposure will result in cooler tones of chartreuse leaves.
- **Flowers:** Small, fragrant, yellow blossoms in the summer are not very showy.
