

Ever Red Banana

Musa 'Ever Red' PP 36432

- **Use:** Get ready to make a statement! We're thrilled to introduce an absolutely stunning tropical plant. *Musa sikkimensis* 'Ever Red' grows fast and vigorously, and will show off its breathtaking striped green with maroon-red leaves before you know it. Though not an edible plant, 'Ever Red' adds a tropical touch wherever you decide to place it. **This is one of the cold hardiest of all banana trees.**
- **Exposure/Soil:** Full sun– part shade. Provide well-drained, moist soil, but not soggy. Use a slow release fertilizer. Always hungry this plant loves lots of water and fertilizer!
- **Growth:** This impressive plant grows up to 12' high and 10' wide after 10 years and has an upright habit with slight arching at the top. This tropical plant will look great in a large pot on the patio or terrace or as garden plant, and will surely make a statement in architectural designs.
- **Hardiness:** **Zone** 5a-10, perennial Mulch around the base of the plant 1– 2 ft in the fall.
- **Foliage:** Deciduous. Large fragrant green and maroon-striped leaves can be used for cooking.
- **Flower:** Blooms late summer, but requires LOTS of fertilizing and growth first. Bananas on the variety are inedible and starchy, but still fun to show the neighbors..
