

Reblooming Catmint

Nepeta faassenii 'Kitten Around'

- **Use:** The popular 'Purrsian Blue' changed the way we thought of catmint by giving a solid performance in a cute little package. If that wasn't small enough for you, you'll love 'Kitten Around'! Even more compact and petite than its predecessor, this plant forms a tight, round mound of aromatic foliage. Bright rosy purple calyxes hold periwinkle blue flowers. The perfect size for containers, edging the sunny border or filling in small spaces in the garden.
- **Exposure/Soil:** Plant in full sun to partial sun, in well drained soil. Use slow release fertilizer two times a year.
- **Growth:** Naturally rounded clumps growing 12 to 14 inches high and spreads 20 to 24 inches across at maturity.
- **Hardiness:** Zone 4-8 Perennial
- **Foliage:** Deciduous. The gray-green foliage is strongly scented, so be sure to plant it where you can brush against it.
- **Flower:** This is a very floriferous selection whose flower power is amplified by its having its flowers spaced closely together on the stems. Periwinkle blue –dark purple flowers from early summer into early fall.

**Your cats
will love it!**

Very easy to grow!
