

# Pink Evening Primrose

## *Oenothera speciosa* 'Twilight'

- **Use:** 'Twilight' is an upright, herbaceous perennial that has mid-green foliage with a distinctive purple-bronze central marking, most pronounced in young growth. The flowers are large, clear pink and produced throughout summer in large quantities. Attracts humming birds and is deer resistant!
- **Exposure/Soil:** Prefers full-part sun. Fairly drought tolerant and needs little water once established, but prefers good drainage.
- **Growth:** Grows 16" high and 20" wide. Will reseed so be sure to give it room!
- **Hardiness:** 5-9 perennial.
- **Foliage:** Deciduous. Striking dark variegated foliage. The long slender lance shaped leaves are green with jagged maroon variegation running along their centre.
- **Flower:** . The fragrant flowers are open fan shaped cups, a pale lilac pink shade and with a yellowy green centre. The petals have an appealing slightly crumpled look and flower through summer. Cut back the growth where it becomes disordered.

**Super easy  
to grow!**
