

Japanese spurge

Pachysandra terminalis

- **Use:** Excellent ground cover for small shady areas.
- **Exposure/Soil:** Part sun-shade. Moist, well-drained soil, but not soggy.
- **Growth:** Grows to 6 to 10 in. tall, spreads moderately by underground stems
- **Hardiness:** 5-9; perennial
- **Foliage:** Has attractive evergreen stems that hold extra glossy, bright green leaves. Virtually problem free.
- **Flower:** Inconspicuous white flowers in spring.

Deer Resistant!
