

Crazy Blue Russian Sage

Pervoskia atriplicifolia 'Crazy Blue' PP25639

- **Use:** The perfect addition to a garden in hot, dry areas. Lacy-like, bright sky blue flowers are held on amethyst calyxes, with strong stems and an upright habit. The beautiful color will last a long time! The plant has a deep blue flower and blooms from late spring to fall frost. Good for Firescaping.
- **Exposure/Soil:** Prefers full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established.
- **Growth:** Moderate growing; reaches 16 to 18 in. tall, 14 to 16 in. wide.
- **Hardiness:** Zone 4-9 Perennial
- **Foliage:** Deciduous. Features finely-dissected, aromatic, gray-green foliage on stiff, upright, square stems are highly aromatic. Silvery foliage can provide good winter interest in warm winter climates.
- **Flower:** Whorls of 2-lipped, tubular, violet-blue flowers are (a deeper blue than any other Pervoskia on the market currently) tiered in branched, terminal panicles appear over a long summer bloom. Bloom begins in late spring and continues right through September, which makes Pervoskia an exceptionally long-blooming perennial. Cut back occasionally for a tidy habit.

Tolerates:
Heat,
Rabbits,
Deer,
Drought,
Clay Soil,
Dry Soil, Air
Pollution
Attracts:
Butterflies
